

Introduction ([Topics](#))

An Overview of Atlas Laravel ([Article](#))

Unlock the Power of Business Connections with Atlas Laravel. Atlas Laravel is an online professional business directory listing platform. It is an online-based business turning point. It may be your best choice to establish a business without products in a fast-paced, digitally driven world. Atlas Laravel provides a streamlined, customizable solution that makes building a business directory simple, and effective with seamless connectivity and act as the key to success.

Why Choose Atlas for Your Business Directory?

Atlas Laravel is not just a directory listing platform. It is fully optimized and redefines how businesses connect and grow. Whether you are a growing entrepreneur or a seasoned business owner or not. Atlas Laravel offers an unparalleled opportunity to effortlessly create and manage your business directory portal. Also, Atlas Laravel offers benefits for business owners and entrepreneurs that are:-

Enhanced Market Reach: By creating a directory on Atlas Laravel, businesses increase their visibility, attracting a broader audience and potential partners.

Cost-Effective Marketing: Compared to traditional advertising, maintaining a listing or a directory is a cost-effective way to promote products and services.

Lead Generation and Networking: Atlas Laravel provides a powerful platform for connecting with other businesses, fostering partnerships, and driving sales.

What Atlas does

Atlas Laravel is a business directory listing platform that is managed easily and flexibly. With this application, you can ornamental your own choice:

- Manage categories & sub-categories
- Manage Amenities
- Add and remove directories
- Manage frontend and backend
- Add cities and maps
- Determine pricing
- Receive offline/online payment
- Set ratings-wise quality
- See revenue history
- Manage booking requests
- Manage users
- Manage blogs
- Featured & Varified any directories
- Configure settings

- Add addons

Who is Atlas for

Atlas Laravel is a platform where you can publish any businesses and directories and also add detailed information for beneficiaries.

Customer: Customers can purchase a plan and publish their business/directories. They can also show their offers, prices, menus, services, sell/buy/book services, and goods. With Atlas Laravel, customers can increase business popularity also.

Admin: The site admin who operates the application. A site admin can make money from customer's plan purchases.

Agent: Any Customer can take an agent through a subscription. In Atlas Laravel business directory platform, agents play a vital role in connecting businesses with customers and enhancing the overall user experience. It's a great opportunity to make money for Agent.

Basic Terms [\(Article\)](#)

Who is an Admin

Admins are website owners or co-owners managing directories, frontend content, customers, and bookings. Atlas empowers admins with tools to customize, oversee listings, and drive revenue, making it a complete business directory management solution.

Who is the customer

In Atlas Laravel, a customer is a user who registers or logs on to the website to access the services. Directory business owners can highlight and publish their businesses through a subscription plan. They can also claim to verify their business listings or make their listings featured. Customers can also show their offers, prices, menus, and services, and sell, buy, or book services and goods.

Who is Agent

Any Customer can take an agent through a subscription. In Atlas business directory platform, agents play a vital role in connecting businesses with customers and enhancing the overall user experience. It's a great opportunity to make money for Agent.

What is listing

Atlas Laravel is a business directory listing website. As a site owner/admin, you can add businesses and their features to your website. In Atlas, adding a business to your website is called listing or adding directories.

What is tag

To list a business and highlight that business, you or your customers have to add different kinds of user-friendly features as tags on your website. In Atlas Laravel, you can consider these tags as "**Amenities**." As an admin, you can add new amenities, update, remove, or add a new amenities logo. Business owners can use these amenities as features on your website.

How Atlas Laravel works ([Article](#))

Atlas Laravel works with the combination of admin, Agent and customers. Atlas Laravel is coded to build your professional business directory listing website without any harassment. Also, this application comes with the most easiest script. So you can customize Atlas Laravel according to your requirement. Read the steps to know more about Atlas's Laravel workflow.

Installation:

To build your own business directory listing website with Atlas Laravel, you have to download the application file from CodeCanyon. After that, follow the instruction and install Atlas Laravel on your cPanel.

Configuration:

After completing the installation process, you have to configure the Atlas Laravel on your website. To operate the application, you have to provide all the permissions and basic information.

Adding categories:

To define different kinds of businesses, you have to make categories. Admin can add categories and sub-categories and update or remove them whenever you want.

Adding amenities:

To make your customer's businesses more highlighted, attractive, and more specific, you can manage amenities lists on your website. Admin, Ccustomar, and Agent can use these amenities after listing the business. As an admin, you can add, update, remove, or add the amenities logo.

Price managing:

As an admin, you can earn money by listing directories or businesses on your website. You can set multiple subscriptions plans for your customers who want to highlight their businesses on your application. You can easily customize your subscription plan and set the pricing you want.

Adding directory & earn money:

You can start your website business through the Atlas platform after managing categories, amenities, and setting the prices and subscription plans. Your customers can highlight or publish their businesses on your application by purchasing a subscription plan. So list more and more businesses on your application. Grow your business with Atlas and make money.

How to Install Atlas Laravel

Please follow the steps below to complete the installation process:

Upload the downloaded (**Atlas Laravel.zip**) file from CodeCanyon to your server.

You can upload anywhere inside your public_html folder or any sub-folder you want. Just keep in mind the directory where you are.

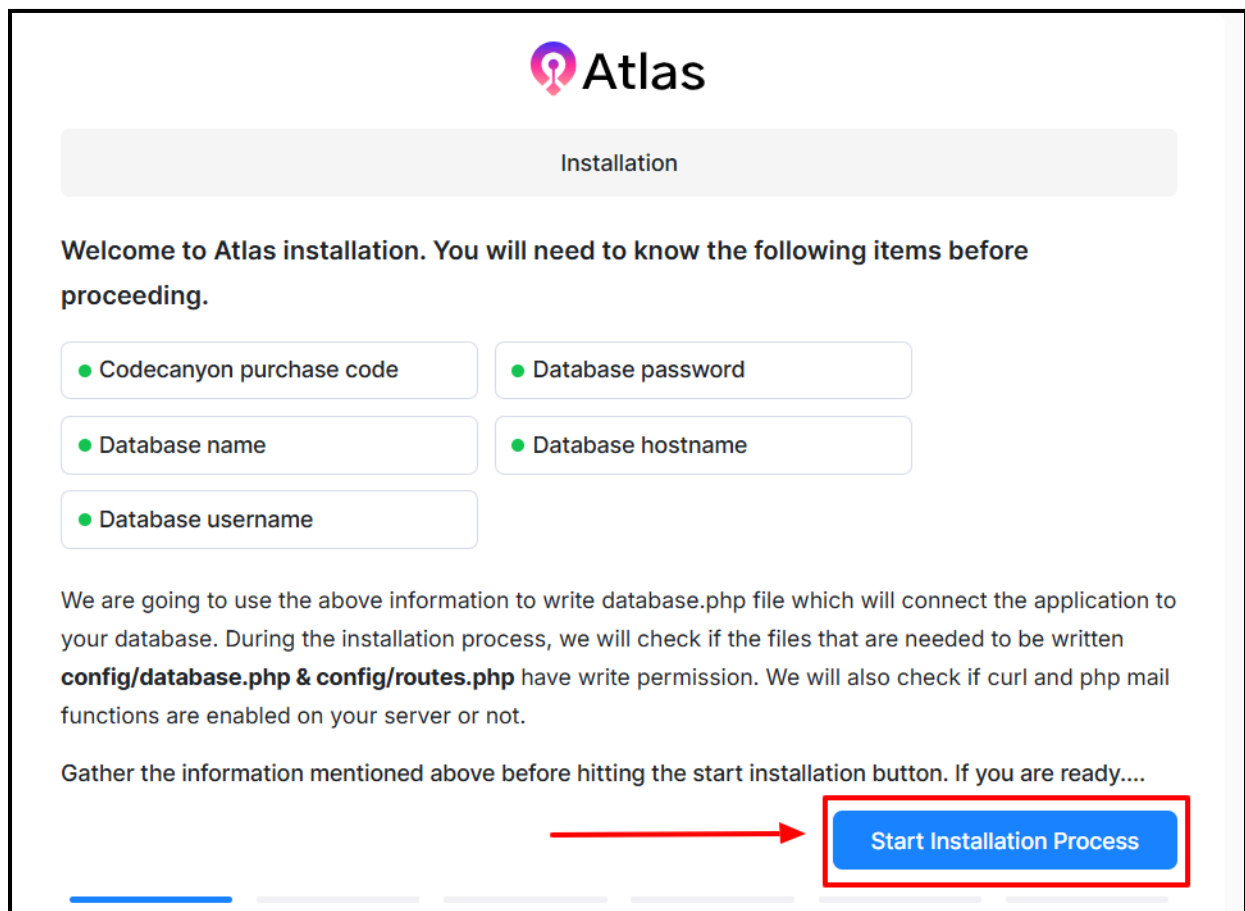

Unzip the file.

Go to your preferred web browser and type the URL where you have the files.

Example: example.com/Atlas Laravel

Unzipped the file. For example - if you have a domain example.com unzipped the files inside the folder "**Atlas Laravel**" the URL will be example.com/atlas laravel.

After you have entered the URL on your browser will see the screen below.

Atlas

Installation

Welcome to Atlas installation. You will need to know the following items before proceeding.

- Codecanyon purchase code
- Database password
- Database name
- Database hostname
- Database username

We are going to use the above information to write database.php file which will connect the application to your database. During the installation process, we will check if the files that are needed to be written **config/database.php & config/routes.php** have write permission. We will also check if curl and php mail functions are enabled on your server or not.

Gather the information mentioned above before hitting the start installation button. If you are ready....

Start Installation Process

Figure 1. Atlas Laravel Start Installation Process

The first step is installation. Before starting, you will need to have the Codecanyon purchase code, the database name, username, password, and database host in the installation process. You can get the purchase code from your purchase information on CodeCanyon. For having the database information, you will need to create a new database on your server. You will also need to ensure that the files in `/config/database.php` and `/config/web.php` have written permission. You should also verify if your server has PHP CURL enabled. After that click the “**Start Installation Process**” button, you will see the screen below:

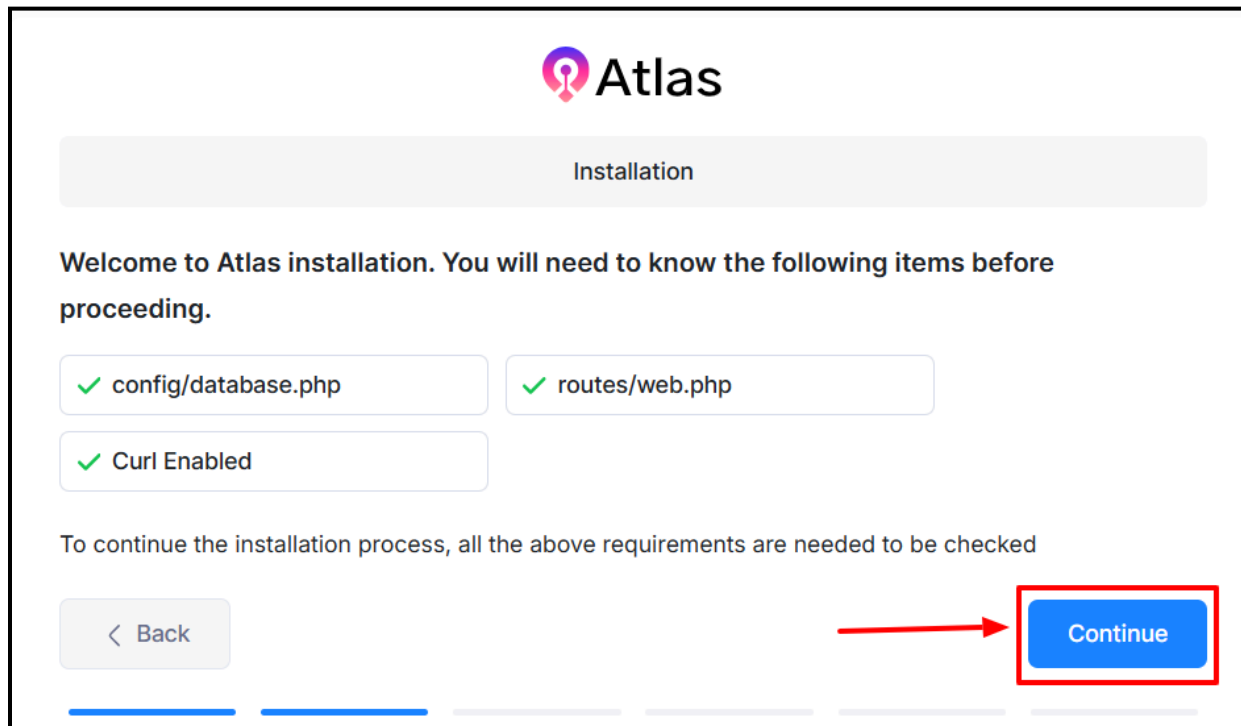

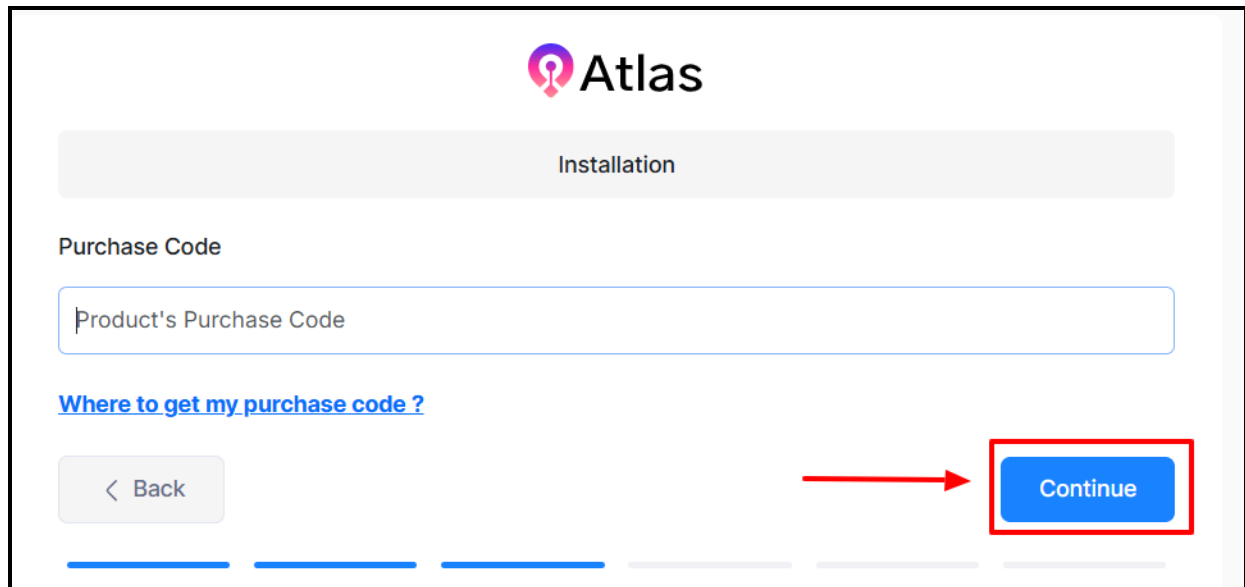

Figure 2. Atlas Laravel Curl Enabled

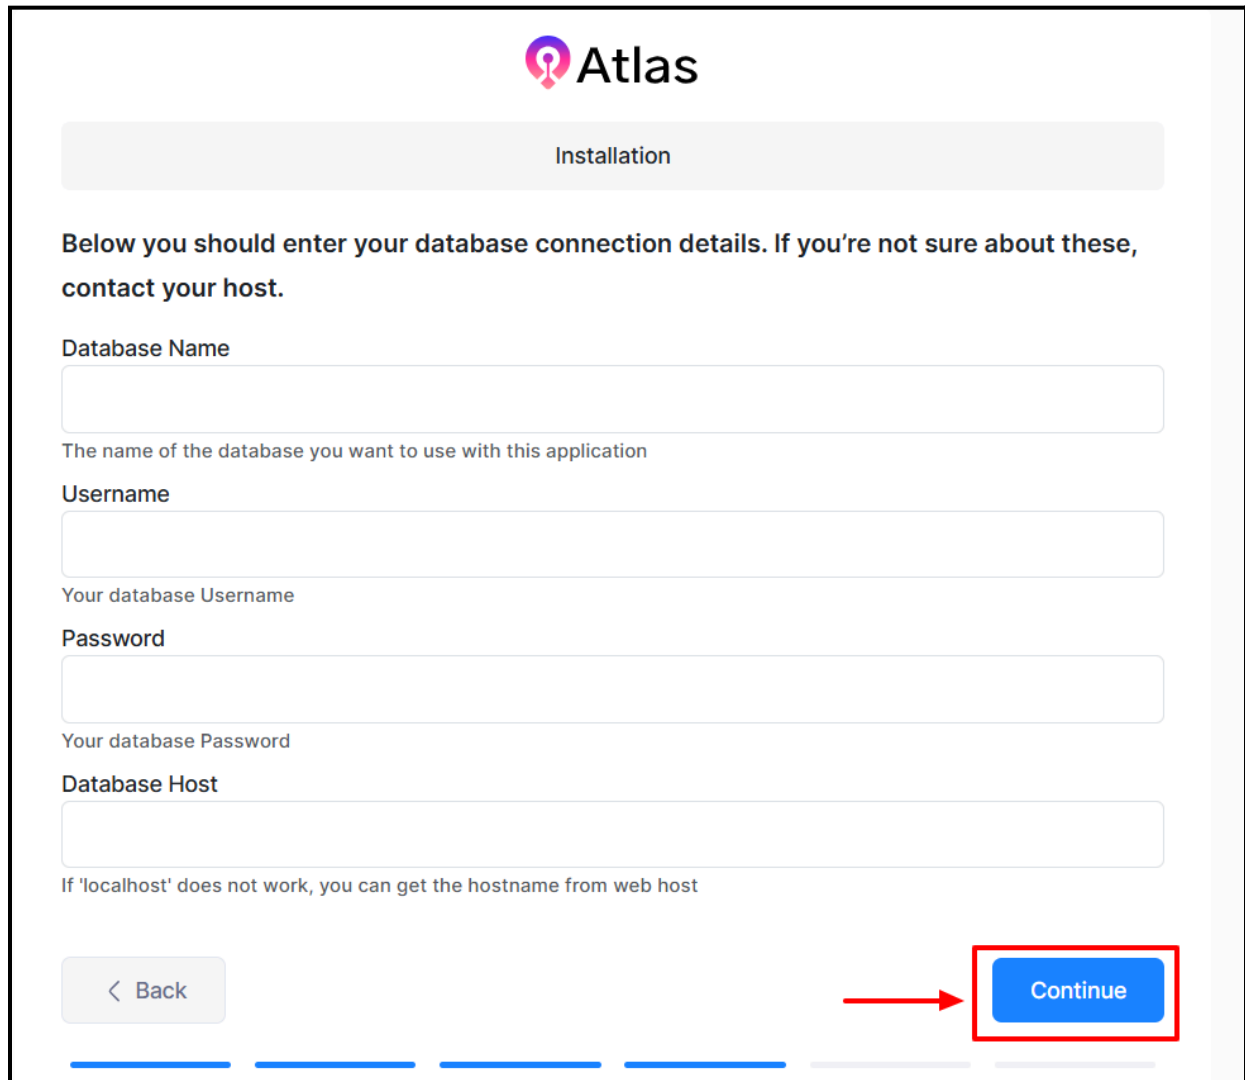

This screen checks if the required files have the write permission and curl is enabled or not. If these are not allowed, you will face issues in the installation process. So make sure that all three points on that screen have a green checkmark. If everything is fine you can click the “**Continue**” button will be presented with this screen below:

The screenshot shows the 'Atlas' logo at the top center. Below it is a grey bar with the word 'Installation'. Underneath is the 'Purchase Code' section, which includes a text input field with the placeholder 'Product's Purchase Code'. Below the input field is a blue link that says 'Where to get my purchase code ?'. At the bottom of the form are two buttons: a grey 'Back' button on the left and a blue 'Continue' button on the right. A red arrow points from the left towards the 'Continue' button, which is also enclosed in a red rectangular box. At the very bottom, there are seven horizontal bars of varying lengths, with the first three being blue and the remaining four being grey.

Figure 3. Atlas Laravel Installation purchase code

Here you will need to insert the purchase code that you have got from CodeCanyon and click the “**Continue**” button, which will lead you to the screen below:

The screenshot shows the 'Atlas' logo at the top, followed by a grey bar with the word 'Installation'. Below this is a text instruction: 'Below you should enter your database connection details. If you're not sure about these, contact your host.' The form contains four input fields: 'Database Name' with the hint 'The name of the database you want to use with this application', 'Username' with the hint 'Your database Username', 'Password' with the hint 'Your database Password', and 'Database Host' with the hint 'If 'localhost' does not work, you can get the hostname from web host'. At the bottom, there is a '< Back' button and a blue 'Continue' button. A red arrow points to the 'Continue' button, which is also enclosed in a red rectangular box. A progress bar at the very bottom shows four blue segments and two grey segments.

Figure 4. Atlas Laravel Database installation

Here you will need to insert your previously created database credentials correctly. The installer will check if the information is correct after you click the “**Continue**” button and if everything is fine, You will be directed to the page below:

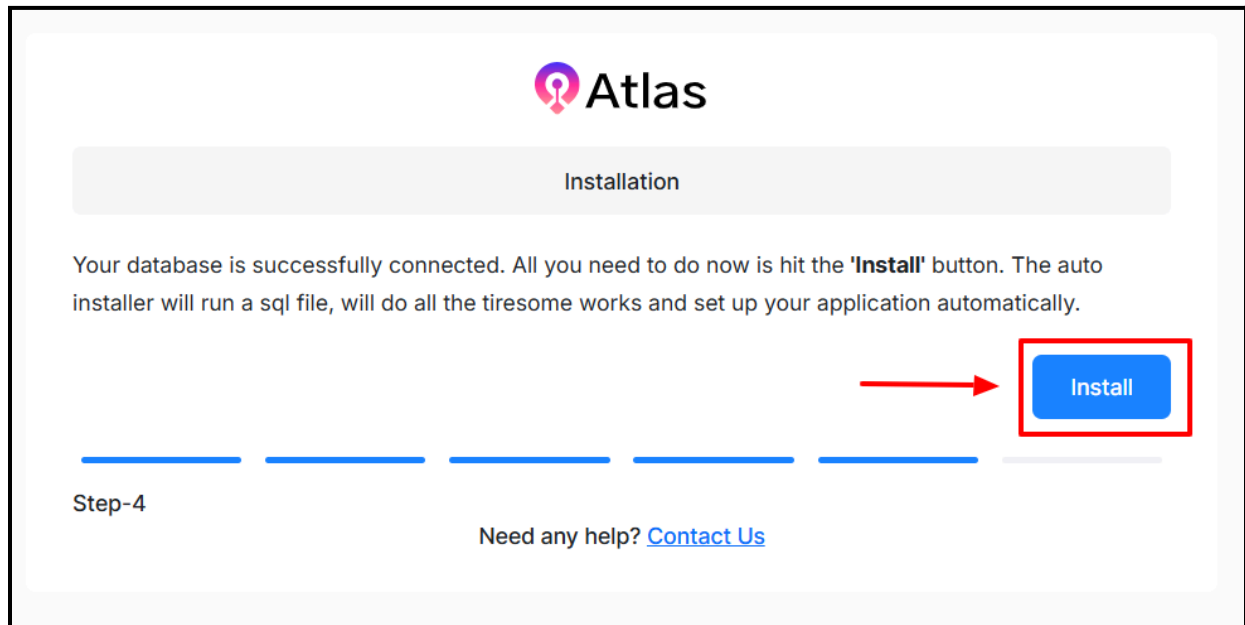

Figure 5. Atlas Laravel successfully installation

You have to click the Install button, automatically importing the application database to your created database. It takes a while, according to your server performance. Would you please wait while the import process is completed? After the installer has successfully imported the database, you will get the following page.

Installation

Congratulations!! The installation was successfully

Before you start using your application, make it yours. Set your application name and title, admin login email and password. Remember the login credentials which you will need later on for signing into your account. After this step, you will be redirected to application's login page.

System Name

Figure 6. Atlas Laravel uploading data

Fill up the information required and click the **"Set me up"** button. This step will save your organization name (CRM name) and administrator login credentials, which you will need later to log into the application. Once completed, you will be directed to the next page, confirming the successful setup.

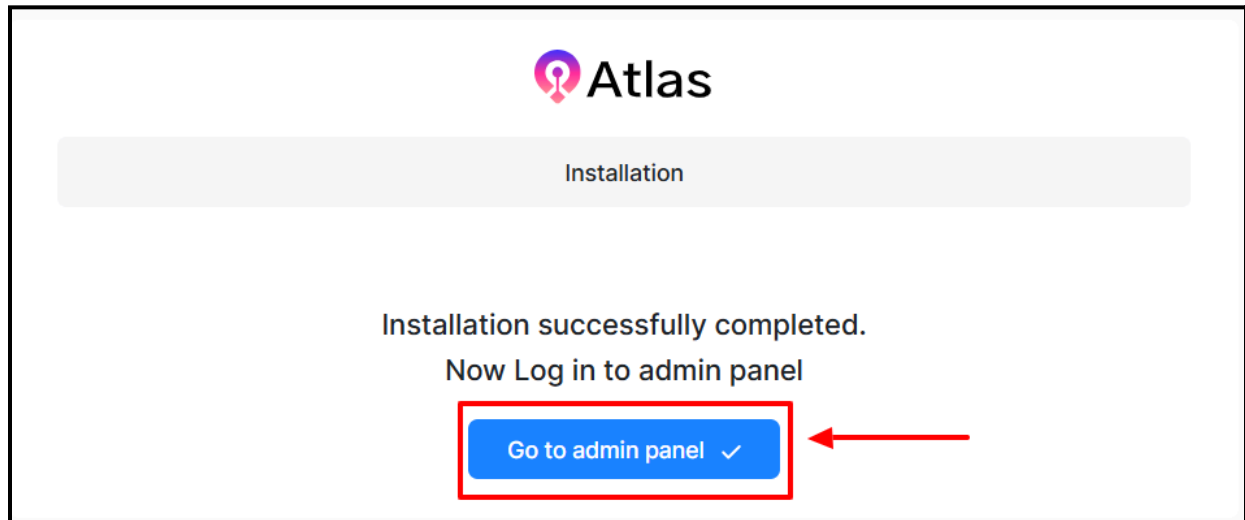

Figure 7. Atlas Laravel logging into the server

Now click the **"Go to Admin Panel"** button to complete the installation. You will be redirected to the admin panel login page, where you can log in using the administrator email and password you provided earlier.

Please ensure that you have followed all the installation steps correctly; otherwise, you may encounter issues running the application. For any assistance, refer to the support documentation or contact the **Atlas Laravel Support Center**.

How to Product Update

If you are already running **Atlas Laravel**, please refer to the **update_instructions.txt** file located in the **"updater"** folder within the downloaded product package. This file contains all the necessary steps required to update the system successfully.

Follow the instructions carefully to avoid issues during the update process. For further assistance, contact the **Atlas Laravel Support Center**.

Admin Panel

How to add the Directory

You can add a new directory in Atlas as an Admin. You can update, edit, delete, change activation status, mark as featured, and verify if you want. Also, you can manage reported directories. You can filter your directories by activation status, users, and verification status.

How to Log in Application

Log in to the website as **Admin**

Type the **Email** in the email option.

Type the **Password** in the password option.

Finally, Click the **Login** button for the login site.

The screenshot shows the Atlas login interface. At the top, there is a header with the Atlas logo, a dropdown menu labeled 'Choose Type', and a search bar with the placeholder text 'Search property....'. Below the header, the main section is titled 'Get Started Now' with the subtitle 'Enter your credentials to access your account'. The login form consists of two input fields: 'Email' and 'Password*'. The 'Email' field contains the text 'username@gmail.com'. The 'Password*' field contains the placeholder text 'Enter password'. To the right of the password field is a link that says 'Forget your password?'. Below the password field is a checkbox labeled 'I agree to the Terms & Policy'. At the bottom of the form is a large black button labeled 'Login'. Below the button is a link that says 'Don't an account? Sign up'. Red annotations are present: a red box around the email input field, a red arrow pointing to the email field, a red box around the password input field, a red arrow pointing to the password field, a red box around the 'Login' button, and a red arrow pointing to the 'Login' button.

How to Manage Listing Categories

As an admin, you can create and manage categories on your website. Customers can use these categories to list their directories, making it easier to organize and showcase their content effectively.

How to add a New Category under Beauty

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.
In the left menu, navigate to **Listing Categories**.
Click on the **Beauty** left sub-menu to open a new window.
Select **Add New Category** to display the entry form.
Enter the desired name in the **Category Name** field.
Choose a parent category from the **Category Parent** dropdown menu.
Finally, click the **Save** button to create and store the new category.

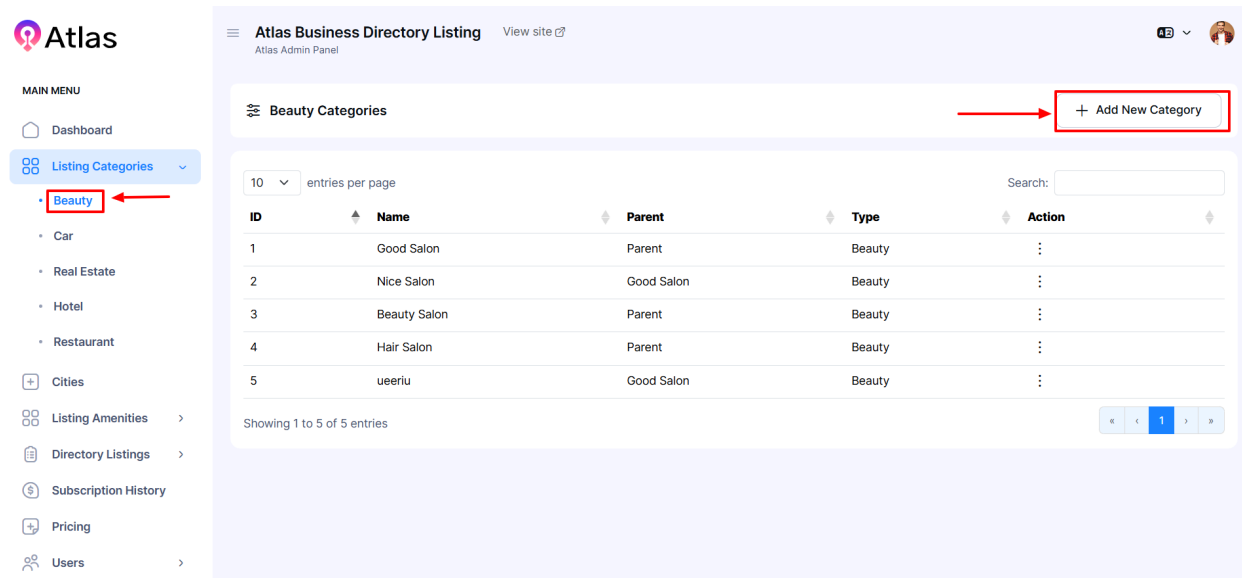

Figure- 2 How to Add Category-Beauty

The screenshot shows the 'Beauty - Category Create' form. It has a title bar with a close button (X). The form contains two main sections: 'Category name' and 'Category parent'. The 'Category name' section has a text input field with the placeholder 'Enter Category Name' (highlighted with a red box and arrow). The 'Category parent' section has a dropdown menu with the placeholder 'Select Category parent' (highlighted with a red box and arrow). At the bottom left, there is a blue 'Save' button (highlighted with a red box and arrow).

Figure- 3 How to Add Category-Beauty

How to Edit Category under Beauty

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.

In the left menu, navigate to **Listing Categories**.

Click on the **Beauty** left sub-menu to open a new window.

Next, click the **Action** button (represented by **three dots**), and a menu will appear with the following options: **Edit** and **Delete Category**.

Select **Edit** to open the edit form.

Enter the new name in the **Category Name** field.

Choose a parent category from the **Category Parent** dropdown menu.

Finally, click the **Update** button to save your changes.

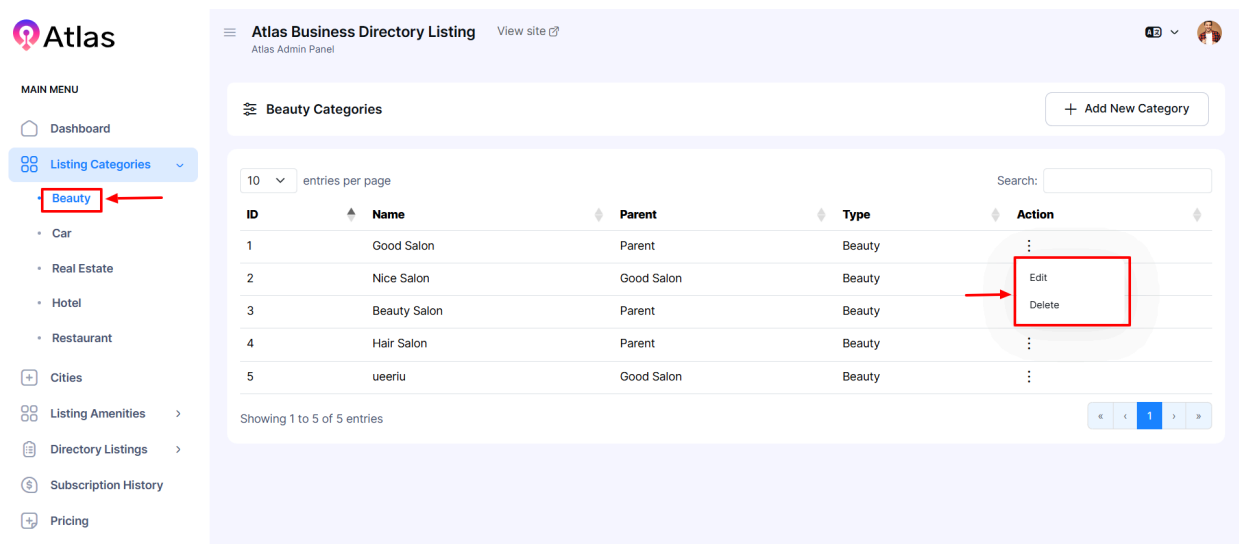

Figure- 4 How to Edit Category-Beauty

The image shows a modal window titled "Edit Category" with a close button (X) in the top right corner. Inside the modal, there are two main sections. The first section is labeled "Category name" and contains a text input field with the value "Good Salon". A red rectangle highlights this input field, and a red arrow points to it from the top right. The second section is labeled "Category parent" and contains a dropdown menu with the text "Select Category parent" and a downward arrow icon. A red rectangle highlights the entire dropdown menu, and a red arrow points to it from the top right. At the bottom left of the modal, there is a blue button with the text "Update". A red rectangle highlights this button, and a red arrow points to it from the right.

Figure- 5 How to Edit Category-Beauty

How to Delete Category under Beauty

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.

In the left menu, navigate to **Listing Categories**.

Click on the **Beauty** left sub-menu to open a new window.

Next, click the **Action** button (represented by **three dots**), and a menu will appear with the following options: **Edit** and **Delete Category**.

Select **Delete** a confirmation window will pop up.

If you click the **Delete** button category will be deleted otherwise **Close**. Note: Never back it again.

Figure-6 How to Delete Category-Beauty

Note: The above procedure will apply to cars, real estate, hotels, and restaurants for add delete Category.

How to Add Cities

Easily add and manage multiple cities on your website with just a few clicks. Customers can then search and filter directories by these cities, enhancing their browsing experience and helping them find relevant listings quickly and efficiently.

How to Add New City

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.

In the left menu, navigate to **Cities**.

Select the **Add New Caty** button to display the entry form.

Enter the desired name in the **Caty Name** field.

Choose a Country Name from the **Country Name** dropdown menu.

Click the **Choose File** button in the **City Image** section and upload a relevant image.

Finally, click the **Save** button to create and store the new City.

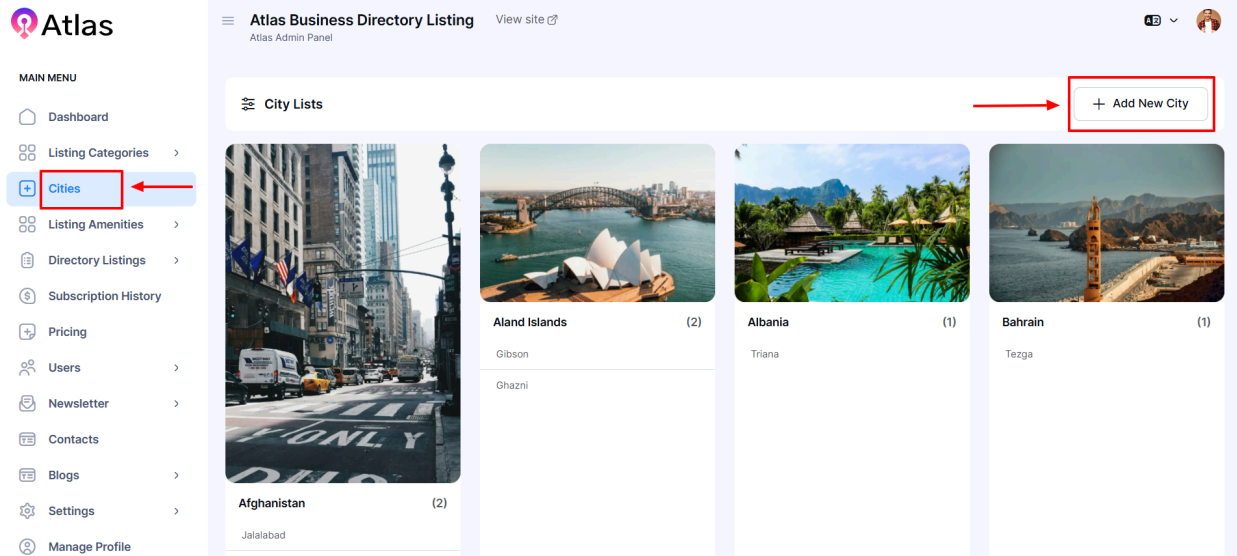

Figure-7 How to Add New City-Cities

The 'Add New City' form is displayed with a close button (X) in the top right corner. It contains three main sections: 'City Name' with a text input field labeled 'Enter City Name'; 'Country Name' with a dropdown menu labeled 'Select Country Name'; and 'City Image' with a file upload area showing 'Choose File' and 'No file chosen'. At the bottom, a blue 'Save' button is highlighted with a red box and a red arrow pointing to it.

Figure-8 How to Add New City-Cities

How to Listing Amenities

In the context of Atlas, amenities refer to features or facilities that enhance users' comfort, convenience, and enjoyment. These include well-designed spaces, modern utilities, security, and seamless connectivity, elevating lifestyle experiences effortlessly.

How to Add Modal Amenities Car

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.

In the left menu, navigate to **Listing Amenities**.

Choose the **Car** from the left sub-menu.

Select the **Add Modal Amenities** button to display the entry form.

Enter the desired name in the **Category Name** field.

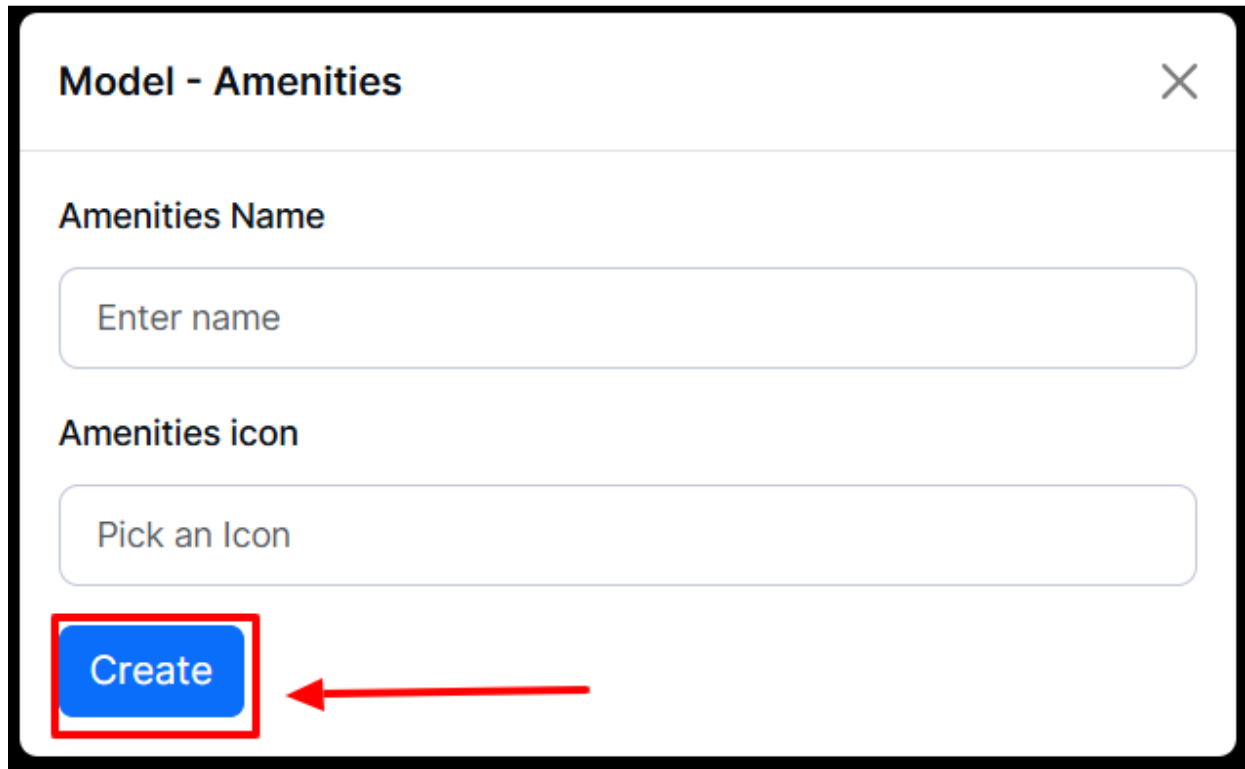

Choose a Category parent from the **Category Parent** dropdown menu.

Finally, click the **Save** button to add the provided information.

The screenshot displays the Atlas Admin Panel interface. On the left, the 'MAIN MENU' includes 'Dashboard', 'Listing Categories', 'Cities', 'Listing Amenities' (expanded), and 'Directory Listings'. Under 'Listing Amenities', the 'Car' option is selected and highlighted with a red box. The main content area is titled 'Atlas Business Directory Listing' and 'Car Amenities'. It features a '+ Add Model Amenities' button in the top right corner, highlighted with a red box. Below this, there is a 'Car Amenities List' table with columns for ID, Name, Icon, and Action. The table contains four entries: BMW, Honda, Lotus, and Lexus. A search bar and pagination controls are also visible.

How to Manage Directory Listing

As an Admin in Atlas, you can add new directories and manage them effortlessly. Update, edit, delete, change activation status, mark as featured, or verify directories as needed. You can also handle reported directories and filter listings by activation status, users, and verification status for better organization.

How to Add a Listing

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.

Navigate to **Directory Listings** from the left menu and select **Add Listing** to open the entry form.

Choose a **Listing Type** from the dropdown to display the corresponding form.

Select a **Listing Category** from the dropdown menu.

Enter the desired title in the **Listing Title** field.

Provide a detailed description in the **Description** field.

Set the visibility using the **Visibility** dropdown.

Choose the appropriate option from the **Type** dropdown.

Enter **latitude** and **longitude** values in their respective fields.

Click the **Address** to expand the address form:

- Select the **Country** and **City** from the dropdowns.

- Enter the full address and postal code.
- Click the **SEO** button to expand SEO settings:
- Fill in the **Meta Title**, **Meta Keywords**, **Meta Description**, **Og Title**, **Canonical URL**, **Og Description**, and **Json ID** fields.
- In the **Image** section
- Click **Choose File** to upload a relevant image.
- Select **Media** to access the media form:
- Upload a listing image and, if applicable
 - Add a video link in the **Preview Video** field.
- Finally, click **Create** to save the new listing with all the provided details.

The screenshot displays the 'Atlas Business Directory Listing' Admin Panel. On the left, the 'MAIN MENU' includes 'Directory Listings', which is highlighted with a red box and an arrow. Under 'Directory Listings', the 'Add Listing' option is also highlighted with a red box and an arrow. The main content area shows the 'Create Listing' form. At the top, the 'Listing Type' dropdown is set to 'Beauty Listing' and the 'Listing Category' dropdown is set to 'Select listing category', both highlighted with red boxes and arrows. The form includes tabs for 'Basic Info', 'Address', 'Seo', and 'Media'. The 'Basic Info' tab is active, showing fields for 'Listing title *', 'Description *', 'Visibility *', 'Type *', 'Latitude *', and 'Longitude *'. Below these fields is a map of North America.

Figure-29 How to Add Listing-Directory

The screenshot shows the 'Atlas Business Directory Listing' admin panel. On the left, the 'MAIN MENU' includes 'Dashboard', 'Listing Categories', 'Cities', 'Listing Amenities', 'Directory Listings', 'All Listings', 'Claimed Listings', 'Reported Listing', 'Subscription History', 'Pricing', 'Users', and 'Newsletter'. The 'Directory Listings' section is expanded, and 'Add Listing' is highlighted with a red box and an arrow. The main form is titled 'Create Listing' and has tabs for 'Basic Info', 'Address', 'Seo', and 'Media'. The 'Address' tab is selected and highlighted with a red box and an arrow. The form fields include 'Listing Type' (set to 'Beauty Listing'), 'Listing Category' (dropdown), 'Country *' (dropdown), 'City *' (dropdown), 'Address *' (text area), and 'Post Code *' (text field).

Figure-30 How to Add Listing-Directory

The screenshot shows the 'Atlas Business Directory Listing' admin panel. On the left, the 'MAIN MENU' is the same as in Figure 30. The 'Directory Listings' section is expanded, and 'Add Listing' is highlighted with a red box and an arrow. The main form is titled 'Create Listing' and has tabs for 'Basic Info', 'Address', 'Seo', and 'Media'. The 'Seo' tab is selected and highlighted with a red box and an arrow. The form fields include 'Meta Title', 'Meta keywords', 'Meta Description *', 'OG title', 'Canonical URL', 'OG Description *', 'Json ID', and 'OG Image'. The 'Create' button at the bottom is highlighted with a red box and an arrow.

Figure-32 How to Add Listing-Directory

How to Listing Amenities

In Atlas, an Amenities Listing highlights key features or services that make a business more attractive, such as free Wi-Fi, parking, or pet-friendly options. It helps businesses showcase offerings and allows users to find services that meet their needs.

How to Listing Amenities

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.
 From the left menu, go to **Directory Listings** and select **All Listings**.
 Click on **Beauty** from the left menu.
 Select **Add New Listing** to open the entry form, similar to the **Add Listing** menu.
 Fill in the required information in the form.
 Finally, click **Create** to save the new listing with all the provided details.

Note: The same procedure will apply to **cars, real estate, hotels, and restaurants**.

How to Edit Beauty

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.
 Navigate to **Directory Listings** from the left menu and select **All Listings**.
 Click on **Beauty** from the left menu.
 Click the **Action** button (**three dots**) to open a menu with the options: **Change Visibility**, **Edit**, and **Delete**.
 Select **Edit** to open the entry form.
 In the **Basic Info** section:

- Enter the listing title in the **Listing Title** field.

- Enter the desired description in the **Description** field.
- Choose the desired option from the **Visibility** dropdown.
- Select the appropriate listing type from the **Type** dropdown.
- Input the **latitude** and **longitude** values in their respective fields.

Finally, click the **Update** button to save the provided information.

In the **Service** section:

Click the **Service** button to display the service entry form.

Click **Add Service** to create new services:

- Enter the service name in the **Service Title** field.
- Specify the duration in the **Service Time** field.
- Enter or select the price in the **Service Price** field or dropdown.
- Click **Create** to save the service details.

Finally, click the **Update** button to save the provided information.

In the **Opening Time** section:

Click the **Opening Time** button to manage working hours.

After entering all required information click the **Update** button to save the provided information.

In the **Team Member** Section:

Click the **Team Member** button to manage team details.

Click **Add Team** to open a new entry form:

- Enter the team member's name in the **Name** field.
- Enter the designation in the **Designation** field.
- Upload a relevant image by clicking **Choose File** in the Image section.
- Select a rating from the **Rating** dropdown menu.
- Click the **Create** button to save the provided information.

Finally, click **Update** to save the provided information.

In the **Address** section:

- Select Country from the **Country** dropdown menu.
- Choose City from the **City** dropdown menu.
- Put Address in the **Address** field.
- Type the postcode in the **Post Code** field.
- Click the **Update** button to save the provided information.

In the **SEO** section:

- Fill in the fields for **Meta Title**, **Meta Keywords**, **Meta Description**, **Og Title**, **Canonical URL**, **Og Description**, and **Json ID**.
- In the **Image** section, click **Choose File** to upload a relevant image.

Click **Update** to save the provided information.

In the **Media** section:

- Upload a **listing image** in the listing Images field.
- Add a **video link** in the **Preview Video** field which is applicable.

Finally, click the **Update** button to save the new listing with all the provided information.

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.
 Navigate to **Directory Listings** from the left menu and select **All Listings**.
 Click on **Hotel** from the left menu.
 Click the **Action** button (**three dots**) to open a menu with the options: **Change Visibility**, **Edit**, and **Delete**.
 Select **Edit** to open the entry form.
 In the **Basic Info** section:

- Enter the listing title in the **Listing Title** field.
- Choose the Listing Price, Bed Number, Bath number, Floor size, Garage, Year, Visibility, Type, and Dimension from the **dropdown** menu or type if needed.
- Type the desired description in the **Description** field.
- Input the **latitude** and **longitude** values in their respective fields.

In the **Address** section:

- Select Country from the **Country** dropdown menu.
- Choose City from the **City** dropdown menu.
- Put Address in the **Address** field.
- Type the postcode in the **Post Code** field.

Click the **Features** button to pop up a window.

Click **Add Feature** to create a new feature:

- Enter the Amenities Name in the **Amenetis Name** field.
- Choose the Amenities Icon from the **Amenities Icon** field.
- Click the **Create** button to save the feature details.

Click the **Rooms** button to pop up a window.

Click **Add Room** to create a new Room:

- Enter the Room Title in the **Room Title** field.
- Choose the **Number of Persons** from the Number of Person **dropdown** menu or type.
- Select the **Number of Children** from the Number of Child **dropdown** menu or type.
- Type **Room Price** in the Room Price field or select from the dropdown menu.
- In the **Room Image** section, click **Choose File** to upload a relevant image.
- Click and **Tik Mark** on the feature as you require.
- Click the **Create** button to save the feature details.

In the **SEO** section:

- Fill in the fields for **Meta Title**, **Meta Keywords**, **Meta Description**, **Og Title**, **Canonical URL**, **Og Description**, and **Json ID**.
- In the **Image** section, click **Choose File** to upload a relevant image.

In the **Media** section:

Upload a **listing image** and add a **video link** in the **Preview Video** field which is applicable.

Finally, click the **Update** button to save the new listing with all the provided information.

The screenshot displays the Atlas Business Directory Listing Admin Panel. On the left is the main menu with options: Dashboard, Listing Categories, Cities, Listing Amenities, and Directory Listings. Under Directory Listings, there are sub-items: All Listings, Beauty, Car, Real Estate, Hotel (highlighted with a red box and arrow), and Restaurant. The main content area shows the 'Hotel Lists' table with columns: ID, Image, Title, Category, price, Visibility, and Action. The table contains 4 entries. The 'Action' column for the second entry has a dropdown menu open, showing options: Change visibility, Edit, and Delete. A red arrow points from the 'Edit' option to the 'Hotel' item in the main menu.

Custom Field Feature

This custom field Feature allows admins or agents to dynamically add various types of custom fields to their listings. Supported field types include text, image, slider, gallery, video, FAQ, and more. It offers complete flexibility for tailoring listing input forms based on unique needs.

Admin Guide:

From the Admin Panel, go to Directory Listings > click Edit on any listing > open the Custom Fields tab > and add custom fields based on the required type.

Clicking the **Add Type** button opens a modal where you can select a custom field type from the dropdown; once selected, the specific field UI appears, allowing you to increase or decrease fields using the plus/minus buttons, and clicking **Submit** will create that custom field for the listing—supporting types like Image, Text, FAQ, Slider, Video, and Gallery.

Custom Field Type : **Image**

Title

Powerful Engine Display

Description

This section highlights a high-quality, visually striking image that captures the essence of the car's identity — be it the iconic front view, aggressive LED headlamps, or a powerful hood. It serves as a bold first impression to instantly attract attention. This image often reflects the core branding and design philosophy of the vehicle.

How to Manage Agent Packages

In Atlas, Pricing empowers businesses to showcase service or product rates transparently, enhancing trust and decision-making for clients. Admins can customize pricing structures, offer tiered packages, and highlight competitive rates, making it easier for businesses to attract more customers, boost sales, and stand out in a competitive marketplace.

How to Add Package

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.

Navigate to **Agent Packages** from the left menu.

Click the **Add New Package** button to open a new entry form.

Fill in the following details:

- Enter the **package name** in the **Package Name** field.
- Select an **icon** from the **Amenities Icon** dropdown menu.
- Enter the **package sub-title** in the **Package Sub-title** field.
- Specify the **price** in the **Package Price** field or select from the **dropdown** menu.
- Choose the **Package Period** from the **dropdown** menu.
- Enter or select the **number of listings** in the **Listing Number** field.
- Enter or select the **number of categories** in the **Category Number** field.
- Choose **Featured Listings**, **Contact Form**, **Listings Video**, and **Best Choice** options from their respective **dropdown** menus.

Finally, click **Create** to save all the information.

The screenshot displays the Atlas Admin Panel. On the left is a sidebar with a 'MAIN MENU' containing items like Dashboard, Listing Categories, Cities, Listing Amenities, Directory Listings, Subscription History, Pricing (highlighted with a red box and an arrow), Users, Newsletter, Contacts, Blogs, Settings, and Manage Profile. The main content area is titled 'Atlas Business Directory Listing' and 'Atlas Admin Panel'. It features a 'Package List' section with a '+ Add New Package' button (highlighted with a red box and an arrow). Below this is a table with columns: ID, Icon, Name, Period, listing Amount, Category Amount, Feature, Contact, Video, Choice, price, and Action. The table contains three entries. At the bottom of the table, it says 'Showing 1 to 3 of 3 entries'.

ID	Icon	Name	Period	listing Amount	Category Amount	Feature	Contact	Video	Choice	price	Action
1		Melanie Vasquez 124	Annually	550	685	Unavailable	Available	Unavailable		\$875	
2		Tamara Mcfarland	Monthly	990	551	Unavailable	Available	Unavailable	Best Choice	\$822	
3		Naomi Black	Semiannually	219	26	Unavailable	Unavailable	Available		\$998

Navigate to **Settings** from the left menu

In the left sub-menu, choose **SEO Settings** a new entry form will pop up.

Fill out the required fields:

- **Meta Title:** Enter the Meta Title in the designated field.
- **Meta Keywords:** Type the Meta Keywords in the appropriate box.
- **Meta Description:** Fill out the Meta Description field as desired.
- **Meta Robot:** Set the Meta Robot settings in the applicable field.
- **Canonical URL:** Provide the Canonical URL in the designated field.
- **Custom URL:** Enter the Custom URL if applicable.
- **OG Title:** Type the Open Graph (Og) Title field.
- **Og Description:** Fill in the Og Description as required.
- **Og Image:** Upload an Og Image using the **Choose file** button.
- **Json ID:** Put the JSON ID in the respective field.

Click the **Submit** button to save all the information.

Note: The same procedure applies to **Beauty, Real Estate, Car, Hotel, Restaurant, Pricing, Blog, and Contact Us**.

The screenshot displays the 'Atlas Business Directory Listing' Admin Panel. On the left, a sidebar menu lists various sections: Cities, Listing Amenities, Directory Listings, Subscription History, Pricing, Users, Newsletter, Contacts, Blogs, Settings (highlighted with a red box and an arrow), SMTP Settings, About, and Manage Profile. The main content area is titled 'SEO Settings' and contains a 'Manage SEO Settings' section with a 'Home' tab. Below the tab, a list of categories (Beauty, Real-estate, Car, Hotel, Restaurant, Pricing, Blogs, contact-us) is shown on the left, and the corresponding SEO fields are on the right. The fields include: Meta Title (Atlas Directory Listing), Meta keywords (home x), Meta Description (Home page for), Meta Robot (xxxxxx), Canonical Uri (https://atlas.com), Custom Uri (https://atlas.com), OG title (ooooooooo), OG Description (zzzzzzzzzz), OG Image (No file chosen), and Json ID (a JSON-LD script). A 'Submit' button is located at the bottom right of the form, highlighted with a red box and an arrow.

How to Manage About

Atlas Laravel's About Section provides essential technical insights, like software version, PHP requirements, license details, and support status, helping businesses manage their setup confidently. This transparency ensures smooth maintenance, compliance, and informed decision-making for effective Business-to-Business collaboration and long-term platform reliability.

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.

Navigate to **Settings** from the left menu

In the left sub-menu, choose **About**, a new window will appear with technical information related to the Application built.

How to Manage My Profile

In Atlas Laravel, Manage Profile allows businesses to update and personalize their account information. Admins and users can edit details like names, contact information, and social links. Keeping profiles updated improves credibility, strengthens professional connections, and enhances customer trust, supporting better engagement and a more dynamic business presence.

Log in to the **Admin** and access the **Dashboard** from the Admin Panel.

Navigate to **Manage Profile** from the left menu an entry form will pop up.

Fill out the required fields:

- **User Name:** Enter the user name in the designated field.
- **User Email:** Provide email ID in the respective field.
- **User Image:** Upload the user Image using the **Choose file** button.

Click the **Save** button to save all the information.

- **Current Password:** Provide the current password in the respective field.
- **Confirm Password:** Enter the confirmation password in the designated field.

Click the **Save** button to save all the information.

How to Manage an Appointment

In Atlas Laravel, the Appointment feature lets clients book services easily. It improves scheduling, saves time, and boosts customer satisfaction. This tool helps businesses stay organized, build trust, and grow effectively.

Log in to the **Customer** from the Customer Panel.

Navigate to **Appointment** from the left menu a window will pop up.

Click the **Action** button (represented by **three dots**), and a menu will appear with **View Listing**, **Phone Number**, **Email Address**, **Join Meeting**, and **Remove**.

Click the **View Listing** an entry form will pop up.

Fill out the required fields:

- **Date and Time:** Pick the desired date and time from the drop-down calendar.
- **Name:** Type the Full Name in the name field.
- **Phone Number:** Provide phone number in the respective field.
- **Email:** Type your email in the respective field.
- **Message:** Write a message in the message field if required.

Once all fields are completed with data entry, click the **Submit Now** button to apply the updates. If you click the **Phone Number**, a window will pop up to call the customer. If you click the **Email Address**, a window will pop up to send an email to the customer. If you click the **Join Meeting**, a window will pop up with the meeting link to join the meeting. If you click the **Remove** button, a confirmation window will appear. If you click the **Confirm** button item will be deleted permanently; otherwise, Cancel. **Note:** Never back it again.

The screenshot shows the 'Appointment' management interface for a customer. The sidebar on the left contains navigation options: 'Wishlist', 'Appointment' (highlighted with a red box), 'Account', 'Following agent', 'Message', and 'Become an agent'. The main area displays a table of appointments with columns: Date, Customer, Listing, Details, Status, and Action. The table lists three appointments for Joe Root. The 'Action' column for each appointment contains a red box with links: 'View Listing', 'Phone Number', 'Email Address', 'Join Meeting', and 'Remove'. A red arrow points from the 'Appointment' link in the sidebar to the 'Appointment' table.

Figure- 116 How to Manage Appointment- Customer

The screenshot shows the 'Book a Meeting' form for a hotel listing. The form includes fields for Name, Phone, Email, and Message, and a 'Proceed Booking' button. A red box highlights the form, and a red arrow points to the 'Proceed Booking' button. The background shows a hotel listing for 'Hilton Garden Inn Parth' with a total price of \$50,000.

How to Manage an Account

In Atlas Laravel, the Account feature lets businesses manage profiles, listings, and activities easily. It keeps everything organized, saves time, and builds trust. To help businesses grow and deliver better customer experiences.

Log in to the **Customer** from the Customer Panel.

Navigate to **Account** from the left menu an entry form will pop up.

Fill out the required fields:

- **Full Name:** Provide your full name in the respective field.
- **Email:** Type your email in the respective field.
- **Phone Number:** Provide phone number in the respective field.
- **Facebook:** Type the Facebook link in the field.
- **Twitter:** Provide a Twitter link.
- **LinkedIn:** Put the LinkedIn link.
- **Gender:** Select the radio button to select the gender as required.
- **Bio:** Provide a bio description in the respective field.
- **Profile Photo:** Click Choose File to upload a relevant image.

Once all fields are completed with data entry, click the **Save Changes** button to apply the updates.

In Address, fill out the required fields:

- **Country:** Select the Country from the dropdown menu.
- **State:** Select the desired state from the dropdown menu.
- **Address:** Type the address details in the address field.

Once all fields are completed with data entry, click the **Save Changes** button to apply the updates.

In Password, fill out the required fields:

- **Old Password:** Provide an old password in the respective field.
- **New Password:** Type the secured password in the respective field.

Once all fields are completed with data entry, click the **Save Changes** button to apply the updates.

The screenshot displays the Atlas user interface for managing a customer account. The top navigation bar includes the Atlas logo, a search bar, and links for Hotel, Beauty, More, Pricing, Blog, and Contact. A user profile icon and a '+ Add Listing' button are also present.

The main content area is divided into three sections:

- Profile update:** This section contains fields for Full name (Joe Root), Email (customer@example.com), Phone (5854477), Facebook (https://www.facebook.com), Twitter (https://twitter.com), and LinkedIn (https://www.linkedin.com). It also includes a Gender selection (Male, Female, Other) and a Bio field. A Profile Photo section shows a 'Choose File' button and 'No file chosen' text. A red arrow points to the 'Account' link in the left sidebar, and another red arrow points to the 'Save Changes' button at the bottom right of this section.
- Address:** This section contains fields for Country (Australia), State (Melbourne), and Address line (New york, USA). A red arrow points to the 'Save Changes' button at the bottom right of this section.
- Password:** This section contains fields for Old Password (masked with asterisks) and New Password (masked with asterisks). A red arrow points to the 'Save Changes' button at the bottom right of this section.

How to Manage My Orders

The My Orders section in Atlas Laravel allows businesses to track purchases, view order details, and manage billing history, ensuring transparency, organized record-keeping, and smooth financial coordination for stronger, more reliable relationships and accountability.

Log in to the **Customer** from the Customer Panel.

Navigate to **My Orders** from the left menu a window will pop up with Order details.

Click the **Action** button (**three dots**), and a menu will appear with **Download Invoice** and **Delete**.

If you click **Download Invoice**, an Invoice will be downloaded automatically.

If you click the **Confirm** button item will be deleted permanently; otherwise, **Cancel**. **Note:** Never back it again.

The screenshot displays the 'My Orders' section of the Atlas Laravel application. On the left, a sidebar menu for 'Joe Root' (customer@example.com) includes options like 'Wishlist', 'Appointment', 'Following agent', 'My Orders' (highlighted with a red box and arrow), 'Message', 'Account', 'Become an agent', and a 'Logout' button. The main content area, titled 'My Orders', shows a table with 5 orders. The table columns are ID, Product Details, Amount to Pay, Delivered Details, Date, and Action. The first order (ID 1) is highlighted, and its 'Action' column is also highlighted with a red box and arrow, showing 'Download Invoice' and 'Delete' options. The table lists orders for Hotel, Real-Estate, and Beauty products, with statuses like 'Unpaid', 'Paid', and 'Not Delivered'. The bottom of the page indicates 'Showing to 5 of 5 results'.

Agent Guide:

From the Agent Panel, go to My Listing > click Edit on any listing > open the Custom Fields tab > and add custom fields based on the required type.

Clicking the **Add Type** button opens a modal where you can select a custom field type from the dropdown; once selected, the specific field UI appears, allowing you to increase or decrease fields using the plus/minus buttons, and clicking **Submit** will create that custom field for the listing—supporting types like Image, Text, FAQ, Slider, Video, and Gallery.

How to Manage Agent Appointment

In Atlas Laravel, the Appointment feature lets clients book services easily. It improves scheduling, saves time, and boosts customer satisfaction. This tool helps businesses stay organized, build trust, and grow effectively.

Log in to the **Agent** from the Agent Panel.

Navigate to **Appointment** from the left menu a window will pop up.

Click the **Action** button (**three dots**), and a menu will appear with **Make As Incomplete, View Listing, Phone Number, Email Address, Join Meeting, and Remove**.

Click the **View Listing** an entry form will pop up.

Fill out the required fields:

- **Date and Time:** Pick the desired date and time from the dropdown calendar.
- **Name:** Type the Full Name in the name field.
- **Phone Number:** Provide phone number in the respective field.
- **Email:** Type email in the respective field.
- **Message:** Write a message in the message field if required.

Once all fields are completed with data entry, click the **Proceed Booking** button to apply the updates.

If click the **Phone Number** a window will pop up to call the customer.

If click the **Email Address** a window will pop up to send an email to the customer.

If click the **Join Meeting** a window will pop up to add or edit the meeting link.

- Click the **Update** button the save the provided information.

If you click the **Remove** a confirmation window will appear.

If you click the **Confirm** button item will deleted permanently; otherwise, **Cancel**. **Note:** Never back it again.

The screenshot shows the 'Agent Appointment' page in the Atlas dashboard. On the left, a sidebar menu lists various options, with 'Appointment' highlighted and a red arrow pointing to it. The main area displays a table of appointments with columns for ID, Listing, Details, Status, and Action. The first appointment is for 'Joe Root' at 'Hilton Garden Inn Parth' on '23 Jan 25' at '12:00 PM', with a status of 'Not Start Yet'. A red arrow points from the 'Not Start Yet' status to a dropdown menu in the 'Action' column, which includes options like 'Mark As Incomplete', 'View Listing', 'Phone Number', 'Email Address', 'Join Meeting', and 'Remove'. The second appointment is for 'Joe Root' at '2023 Honda Civic Sedan EX' on '14 Jan 25' at '03:38 PM', with a status of 'Not Start Yet'. The third appointment is for 'Joe Root' at 'Luxe Glow Beauty Boutique' on '18 Feb 25' at '12:00 PM', with a status of 'Successfully Ended'. The fourth appointment is for 'Joe Root' at 'Hilton Garden Inn Parth' on '24 Apr 25' at '02:10 AM', with a status of 'Not Start Yet'. The table also shows contact information for Joe Root: 'Joe Root', 'Joe@Example.Com', and '0174789569'. A 'Read More' link is present at the bottom of the table.

How to Manage Subscription

In Atlas Laravel, subscription is a business model where customers pay a recurring fee monthly, yearly or another time frame to access a product or service. Instead of a one-time purchase, subscribers continue to receive benefits as long as they keep paying. This model is widely used in digital services, entertainment, education, and software industries. It's cost-effective, flexible, scalable, and less commitment.

Log in to the **Agent** from the Agent Panel.

Navigate to **Subscription** from the left menu.

Next, click the **Modify Billing Information** a entry for will pop up.

Fill in the required details:

- Enter the Customer Name in the **Customer Name** field.
- Provide the Builling Email in the **Billing Email** field.
- Enter the desire Address in the **Address** field.
- Select the decided Country form the **Country dropdown** menu.
- Select the decided City form the **City dropdown** menu.

Once all fields are completed, Click **Save Changes** button to apply the updates.

Click the **download** button a billing history will be dowloaded automatically.

The screenshot displays the Atlas Agent Subscription management interface. The sidebar on the left shows the user profile 'Nero Hess' and a list of menu items: 'My Customer Panel', 'Wishlist', 'Appointment', 'Account', 'Following agent', 'Message', 'My Agent Panel', 'My Listing', 'Add Listing', 'Appointment', 'Blog', and 'Subscription' (highlighted with a red box). The main content area is titled 'Agent Subscription' and includes a 'Home / Subscription' breadcrumb. It features four sections: 'Dimond Account' (showing 'Unlock Dimond Features - Annually Plan' and 'Your current package price is \$400. It will expired on Jan 05, 2026, 07:01 am'), 'Payment Method' (showing 'Stripe'), 'Invoicing' (showing 'Last payment: 05-01-2025' and a 'Modify Billing Information' button highlighted with a red box), and 'Billing History' (a table with columns: Package, Start Date, End Date, Amount, Status, and Download). The table contains one row for 'Dimond' with a 'Download' button highlighted with a red box. Red arrows point from the 'Subscription' menu item to the 'Modify Billing Information' button and from the 'Download' button to the 'Download' button in the table.

Package	Start Date	End Date	Amount	Status	Download
Dimond	05 Jan 2025	05 Jan 2026	\$400	✓	Download
